ELKRIDE. Winner Garden and home builder. Medal and Sweepstake Prize New York, 1926. Beautiful White Hybrid Cactus, strong stem and grower. Great substance, free bloomer. Plants \$5.00.

SHIRLEY EILEEN SHATTICK. Winner Silver Cup, seedling, Boston, 1926. Large clear Lavender Dec. long, stiff stem, strong grower, a beautiful flower. Tubers \$15.00; plants \$7.50. Scarce.

My plants are heel cuttings taken from healthy field grown stock. After well started they are grown in a cool house for some time before shipping. Large growers as a rule prefer green plants as the tubers grown from plants are more apt to be healthier than tuber grown stock. They are cheaper and will flower equally as well if not better than tubers if cared for and cultivated. A number of failures have been caused by lack of care and cultivation also to heavy feeding. Use caution and don't over fertilize. The best time to fertilize whether it be liquid or top-dressing, is in August when buds appear. I never put fertilizer in the hill, and never apply liquid fertilizer until after a good rain or watering.

In my advertisement I mentioned that I would offer combinations. This I have decided not to do for the reason a number would have some one variety that I might include, so I have decided on the request of a number on a different plan.

1. On all orders of \$10.00 you may select to the amount of \$12.50.

2. On all orders of \$15.00 you may select up to the amount of \$18.75.

3. On all orders of \$20.00 you may select to the amount of \$25.00.

4. On all orders of \$25.00 you may select to the amount of \$31.25.

Only one plant of a variety in above offers. Large orders a matter of correspondence.
